Environmental, Health & Safety Policy

CDTi is dedicated to instill throughout its organization a commitment to safety and environmental protection.

This goal is achieved through the implementation of corporate-wide Health and Safety programs and an Environmental Management System (EMS) that provides a framework for setting and reviewing environmental objectives and targets **in accordance with ISO 14001**.

CDTi will achieve this by:

- Developing products and processes with full consideration of environmental, health and safety impacts.
- Emphasizing a corporate commitment to **continual improvement** and **prevention of pollution**.
- Fostering safe and environmentally responsible behavior on and off the job.
- **Complying with applicable legal and other requirements.**

CDTi's Environmental, Health & Safety Policy is understood, supported, and embraced by all employees working for or on behalf of the organization.
